

FAST® BUMP

High Cut Helmet System

The FAST Bump high cut shell is designed for less extreme environments where ballistic threats are not a priority, and the focus is on protection from blunt trauma forces, or where the primary need is for integration of mission-configured components.

- Rigid polymer High-cut shell with eight vent holes to provide increased airflow and reduce heat stress
- Vented Lux Liner with Low Profile Occ-Dial and Head-Loc Retention System offering enhanced impact protection and unmatched stability and comfort
- Modular Bungee Shroud (MBS) for compatibility with most NVG mounts and integrated NVG retention system
- Features PowerPath ARC rails with improved cable management and accessory integration.
